

# DATA SHEET

## CAR OBD Finder 4G 2.0

### Characteristics and advantages:

- Live location
- Access to past 365 days' route information
- Alarm settings via the FINDER Portal
- Alarm notifications via e-mail and push message
- Usable via smartphone, tablet or computer
- No set-up effort needed
- Possible monthly cancellation
- Power supply via the OBD2 interface
- Splash-proof

#### Future-proof network

Optimal operating ability even when 2G network is no longer available

#### Advanced technology

Longer battery life, more efficient tracking and more

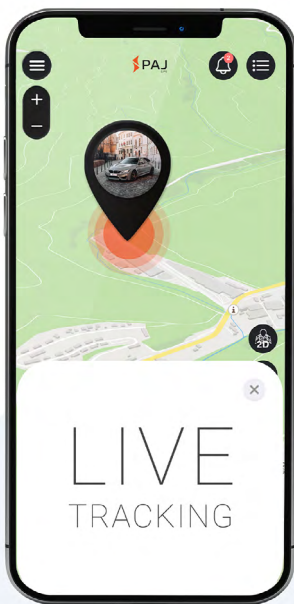

#### Worldwide security

Usable in many countries –always with the best connection

#### Faster network

High-speed data transmission for even faster location

### SIM card characteristics:

- Always looks for the BEST network connection
- Outstanding 4G network coverage
- Worldwide location in over 100 countries
- No more manual SIM card top-up required
- Easy activation process

### Alarm functions:

- Vibration/shock alarm
- Alarm as soon as a predetermined perimeter is entered or left
- Speed alarm
- Power cut alarm
- Alarm when vehicle is started or turned off

## Technical details:

Connection	Direct connection to the OBD2-port (9–35 Volts)
Internal battery	3,7 V 140 mAh Li-ion
Dimensions	52,4 mm x 46,4 mm x 22,7 mm
Weight	45 g
Network	GSM/GPRS/LTE
GPS chip	AT6558D
GPS accuracy	Up to 5 meters

## Content of delivery:

- PAJ GPS CAR OBD Finder 4G 2.0
- User manual
- M2M SIM card (already inserted in the FINDER)

In order to use the complete set, a service fee of only £5,99 (possible monthly cancellation) is required for the data connection and the FINDER Portal. CAR OBD Finder 4G 2.0 can only be used with the M2M SIM card inserted in it and PAJ GPS' FINDER Portal.

# QUICKSTART

## CAR OBD Finder 4G 2.0

1. Register your FINDER and follow the instructions at:

2. Turn on the FINDER by connecting it to the OBD2 interface of the vehicle in order for it to connect to the FINDER-Portal. The LED lights will indicate the state of the GPS tracker:

### Orange LED - GPRS status

Signal	Meaning
The LED flashes every 2-3 sec.	The FINDER is looking for a signal.
The LED is fixed	GPRS signal is available.

OBD2 interface

### Blue LED - GPS status

Signal	Meaning
The LED flashes every 2-3 sec.	The FINDER is looking for a signal.
The LED is fixed	GPS signal is available.

LED signals

SIM card compartment  
(SIM card is already inserted and cannot be exchanged)

3. Download our app:

**ONLINE V2 FINDER PORTAL APP BY PAJ**  
(available in App Store or Google Play Store)

4. Start tracking and protect what you love!
