

# DATA SHEET

## CAR OBD Finder 4G

### Characteristics and advantages:

- Live location
- Access to past 365 days' route information
- Alarm settings via the FINDER Portal
- Alarm notifications via e-mail and push message
- Usable via smartphone, tablet or computer
- No set-up effort needed
- Possible monthly cancellation
- Power supply via the OB2 port
- Splash-proof

#### Future-proof network

Optimal operating ability even when 2G network is no longer available

#### Advanced technology

Longer battery life, more efficient tracking and more

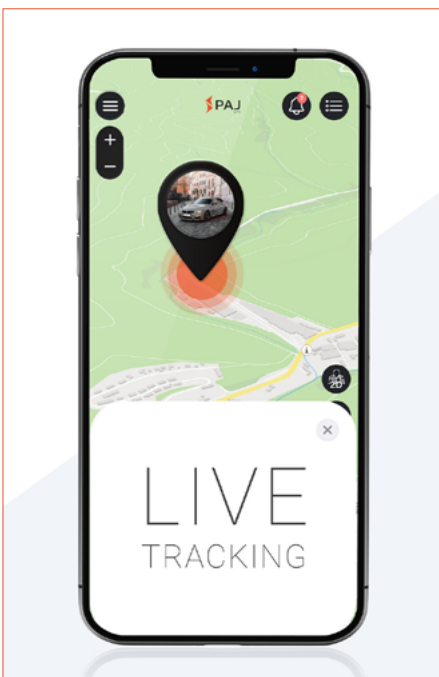

#### Worldwide security

Usable in many countries –always with the best connection

#### Faster network

High-speed data transmission for even faster location

### SIM card characteristics:

- Always looks for the BEST network connection
- Outstanding 4G network coverage
- Worldwide location in over 100 countries
- No more manual SIM card top-up required
- Easy activation process

### Alarm functions:

- Vibration/shock alarm
- Alarm as soon as a predetermined perimeter is entered or left
- Speed alarm
- Power cut alarm
- Alarm when vehicle is started or turned off

## Technical details:

Connection	Direct connection to the OBD2-port (J1850 PWM, J1850 VPW, ISO 9141-2, ISO 14230, ISO 15765-4, J1939)
Dimensions	49,49 mm x 48,5 mm x 21,9 mm
Weight	58 g
Internal battery	approx. 12 hours through internal 3,7 V 60 mAh Li-ion battery
Network	LTE CAT M1 / NB-IoT / GSM / EGPRS / GNSS
GPS chip	U-Blox All-in-One GNSS receiver
GPS accuracy	Up to 3 meters

## Content of delivery:

- PAJ GPS CAR OBD Finder 4G
- User manual
- M2M SIM card (already inserted in the FINDER)

In order to use the complete set, a service fee of only £5,99 (possible monthly cancellation) is required for the data connection and the FINDER Portal. CAR OBD Finder 4G can only be used with the M2M SIM card inserted in it and PAJ GPS' FINDER Portal.

## Possible uses & applications:

- GPS Tracker for cars
- GPS Tracker for campers
- GPS Tracker for vans
- GPS Tracker for trucks
- GPS Tracker for motorcycles (with OBD interface)

# QUICKSTART

## CAR OBD Finder 4G

1. Sign up your FINDER and follow the instructions at:

2. Turn the FINDER on by connecting it to the vehicle's OBD2-port in order for it to connect to the FINDER-Portal. The LED lights will indicate the state of the GPS tracker:

### Green LED - GPRS status

Signal	Meaning
The LED flashes slowly	GPRS signal is available.
The LED flashes quickly	No GPRS signal is available, the FINDER is looking for a signal.

### Blue LED - GPS status

Signal	Meaning
The LED is fixed	GPS signal is available.
The LED flashes quickly	No GPS signal available, the FINDER is looking for a signal.

3. Download our app:

ONLINE V2 FINDER PORTAL APP BY PAJ  
(available in App Store or Google Play Store)

4. Start tracking and protect what you love!
