PET Finder 4G Mini**Quickstart guide**

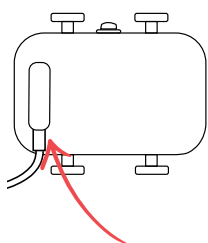

(Front page)

**Schnellstart-Anleitung**

(Rückseite)

1. Charge your device

1. Fully charge until red light turns off.
2. Do not turn on before activation (next step).

Magnetic Charging port

2. Activate your Tracker

Unlock your access now:
3 months premium + 24 months Lite

1. Go to www.start.finder-portal.com or scan the QR code.

2. Enter FINDER ID (Found below the barcode on your GPS tracker)

ID: 1234567890

Keep your unique device ID safe in case you ever need support.

3. Enter code from the Activation card.

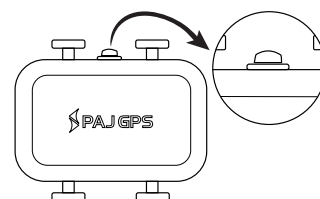

4. Follow the steps and activate your free subscription.
5. Upgrade anytime — a paid plan is required after the free period ends.

INFO:
During checkout, you will create a password. Your email and this password will be your login details for the FINDER Portal.

3. Turn on your device

INFO:
To connect for the first time, we recommend taking the device outside. This helps the tracker find a signal and calibrate faster.

Power on: Hold button for 5 seconds.
Power off: Press button 5x times.

4. Get the FINDER Portal

1. Download the "PAJ Portal v2" app for iOS or Android, or go to www.finder-portal.com

Android-App

iOS-App

2. Log in with the account details you created during activation (Step 2).
3. Follow the in-app instructions to set up device.

The FINDER Portal at a glance

PAJ GPS offers its comprehensive and proprietary PAJ Portal v2 tracking app.

- Name, device status and battery percentage
- Current location of the device
- Traveled route
- Access recent activity, routes and alerts instantly
- Manage your account, adjust app settings and access the manual to explore all features

Enjoy enhanced security, reliability and regular updates with new features as a PAJ GPS customer.

Tap to return to the map view and refresh data

Manage your device: view live location, check route history, analyze statistics, adjust sending interval

Customise your map view: switch to 3D, show or hide routes, waypoints and alarms

LED indicators

Red LED:
(charging cable connected):
On: Charging
OFF: Fully Charged

Orange LED solid:
GSM signal available
Orange LED blinking:
Searching for GSM signal

Blue LED solid:
GPS signal available
Blue LED blinking:
Searching for GPS signal / In battery saving zone (if active)

All LEDs off:
Device is in standby or off

Quick solutions

ISSUE:
Tracker isn't connecting or shows "offline"?

Ensure the tracker is charged and turned on.

Update the app to the latest version.

To connect for the first time, take the device outside (see Step 3).

Make sure your phone is connected to the internet.

Restart the tracker by turning it off and on.

If the problem persists, please contact customer support.

We're here to help!

If you have any questions or need help, our **top-rated Support Team** is available 24/7 to assist you in 7 different languages. We're always ready to ensure your experience is smooth and hassle-free.
