VEHICLE Finder
4G Mini
Model No. 9061

**Quickstart guide**
(Front page)

**Schnellstart-Anleitung**
(Rückseite)

1. **Activate your device**

Keep your ID ready for activation.

- Go to www.start.finder-portal.com or scan the QR code above.
- Select your subscription package and term.
- Choose optional service add-ons.

INFO: During checkout, you will create a password. Your email and this password will be your login details for the **FINDER Portal**.

Why do I need a subscription?

Optimal coverage:
The included SIM card automatically selects the best available network for seamless tracking.

Exclusive access:
Get full access to our FINDER Portal, a constantly updated, user-focused tracking software.

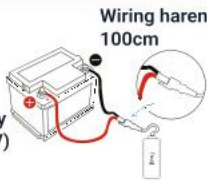

Secure & ad-free:
Enjoy enhanced security and a smooth, ad-free experience.

Peace of mind: We offer a 30-day money-back guarantee if you're not satisfied.

2. **Install your device**

- Attach the cables to the car battery:
 - **Red cable (+) to positive**
 - **Black cable (-) to negative****Important: Do not reverse the polarity.**
- Connect the Vehicle Finder Mini to the wiring harness using the black plug.
- Position the tracker:
 - Place the tracker in a safe spot, away from heat and flammable parts
 - Protect it from water for longer lifespan
 - Secure the tracker using the optional Velcro strip, or route it inside the vehicle
 - Bundle excess cable to avoid loose wires in the engine bay

For initial installation, start the device in an open outdoor area (e.g., driveway, parking lot). Avoid indoor spaces like garages. After installation, drive a few kilometers to help the tracker connect to the best network.

Wiring harness 100cm

Battery (9-75V)

Once connected, the tracker is always on (no on/off switch). It has a built-in battery that continues to send signals for several hours if removed, ensuring alerts after unwanted disconnection.

Note: In the latest version of the device, the fuse is built into the tracker instead of in the cable.

3. **Get the FINDER Portal**

- Download the "PAJ Portal v2" app for iOS or Android, or go to www.finder-portal.com

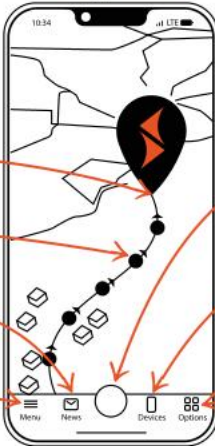

GET IT ON Google Play

Download on the App Store

- Log in with the account details you created during activation (Step 2).
- Follow the in-app instructions to set up device.

The FINDER Portal at a glance

PAJ GPS offers its comprehensive and proprietary PAJ Portal v2 tracking app.

Enjoy enhanced security, reliability and regular updates with new features as a PAJ GPS customer.

Current location of the device

Traveled route

Access recent activity, routes and alerts instantly

Manage your account, adjust app settings and access the manual to explore all features

Tap to return to the map view and refresh data

Manage your device: view data, analyse routes, set alarms and adjust settings

LED indicators

Orange LED - Network Signal
Solid: Signal available
Blinking: Searching for signal

Blue LED - GPS signal
Solid: Signal available
Blinking: Searching for signal

All LEDs off:
Device is in standby or off

Quick solutions

ISSUE: Tracker isn't connecting or shows "offline"?

Update the app to the latest version.

To connect for the first time, take the device outside (see Step 2).

Make sure your phone is connected to the internet.

If the problem persists, please contact customer support.

We're here to help!

If you have any questions or need help, our **top-rated Support Team** is available 24/7 to assist you in 7 different languages. We're always ready to ensure your experience is smooth and hassle-free.
