LOCK BICYCLE Finder 4G

Quickstart guide
(Front page)

Schnellstart-Anleitung
(Rückseite)

1. Activate your Tracker

Unlock your access now:
3 months Premium subscription

1. Go to **www.start.finder-portal.com** or scan the QR code.
2. Enter FINDER ID (Found below the barcode on your GPS tracker)

ID: 1234567890

Keep your **unique device ID** safe in case you ever need support.

3. After entering the ID, click "I already have an activation code" at the bottom of the page.
4. Enter code from the Activation card.

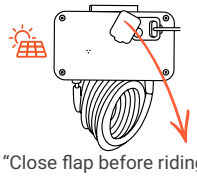

5. Follow the steps and activate your free subscription.
6. Upgrade anytime — a paid plan is required after the free period ends.

INFO:
At the end of the activation, you will create a password. Your email and this password will be your login details for the **FINDER Portal.**

2. Charge your device

1. **Charge before first use.**
   Connect the LOCK BICYCLE Finder via USB-C until the red LED turns off.
2. **Solar charging:**
   The built-in solar panel keeps your tracker powered automatically when your bike is outside.

INFO: Close the USB flap tightly before riding.

"Close flap before riding."

3. Get the FINDER Portal

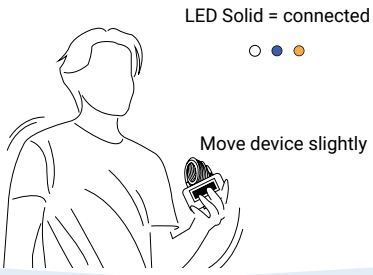

1. Download the **"PAJ Portal v2"** app for iOS or Android, or go to **www.finder-portal.com**

Android-App iOS-App

2. Log in with the account details you created during activation (Step 2).
3. Follow the in-app instructions to set up device.

4. Initial connection – go outside

For the first connection, take your LOCK BICYCLE Finder outside before mounting it. Walk or move it slightly so the tracker can find GPS and network signal faster.
Once the LEDs show connection (blue + orange solid), you're ready to install it.

5. How to install the device on your bike

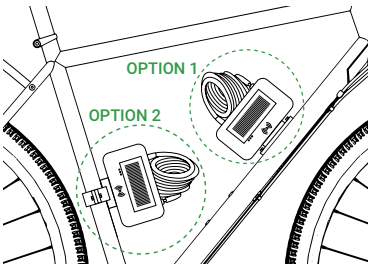

Attach your LOCK BICYCLE Finder using one of the two included adapters:

1. Bottle-holder mount (fits standard screw holes)
2. Frame mount (e.g. seat or top tube)

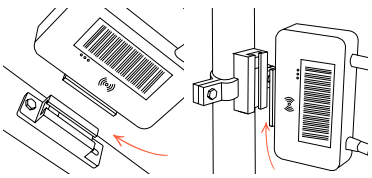

After mounting the adapter, click the tracker into place with the quick-release system.

Installation Guide:

https://www.paj-gps.com/installation/lock

Option 1 Option 2

Mount and click the tracker into place

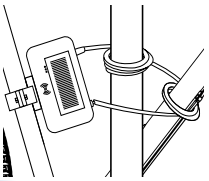

6. Secure & unlock your bike

Lock it right:

Wrap the included security cable around your bike frame and a fixed object — this also keeps the tracker attached even if someone tries to remove it.

Unlock options:

App: Open the lock directly via the FINDER Portal.
NFC tag: Use your included key tag and hold it close to the tracker.

LEDs & Button Functions

LED Indicators:

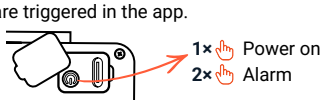

Battery:
Solid = charging | (no cable) = battery low (< 20%)

GPS:
Blinking= searching | Solid = connected

Network:
Blinking = searching | Solid = connected

Button Functions:

1× press = Turn on device
2× press = Activate alarm tone – if motion is detected, a loud sound and movement alert are triggered in the app.

To turn off: disable "Turn OFF Protection" in the FINDER Portal, then switch off the device by pressing the button.

Quick solutions

ISSUE:
Tracker isn't connecting or shows 'offline'?

- Ensure the tracker is charged and turned on.
- Update the app to the latest version.
- To connect for the first time, take the device outside (see Step 3).
- Make sure your phone is connected to the internet.
- Restart the tracker by turning it off and on.
- If the problem persists, please contact customer support.

We're here to help!

If you have any questions or need help, our **top-rated Support Team** is available **24/7** to assist you in **7 different languages**. We're always ready to ensure your experience is smooth and hassle-free.
